## The Jenn-Air Connected Wall Oven

The newly innovated Jenn-Air® Culinary Center makes cooking simple by automatically setting the oven cycle based on the desired doneness levels selected, ensuring exceptional results every time. Including settings for meats, vegetables, fish and baked goods, your food is done right on time, every time. Control your oven at home or on the go through your Smartphone app!

Features two counter-rotating convection fans combined with two 3,400 watt convection elements and Durafinish Protection, soft, auto-close doors, and a telescoping glide rack, cooks enjoy the strength they're looking for in an oven with a modern, elegant design. Ask us how we can help you get connected today!

The Jenn-Air® under counter beverage center creates elegant storage options for cheeses, meats and beverages, including room for up to 14 bottles of wine.

Independent temperature zones and six preset temperatures allow even more customized storage. The fully flush, built-in design with stainless steel exterior ensures that you can install this in any room.

This model is available in right-hand door swing (JUB24FRERS) and left-hand door swing (JUB24FLERS).
